Wihlborgs year-end report

January-December 2009

The CEO's letter

2009 was another record year despite the recession.

As a consequence of continued good lease levels, increases in leasing charges and project development, we have increased our lease incomes by 6 % to SEK 1, 236 million as well as increasing our operating surplus by 7 % to SEK 888 million. The net financial income/expense has improved by SEK 36 million. In overall terms, we have an operating result of SEK 541 million by comparison with SEK 450 million for 2008. Our pre-tax result amounts to SEK 623 million and can be compared with the 2008 figure of SEK -187 million.

Even during the fourth quarter we can show a positive net lease figure of SEK 34 million (43) newly signed against SEK 33 million (30) that were cancelled. During the whole of 2009 we signed new contracts for an annual lease figure of SEK 129 million (138). Cancellations amounted to SEK 108 million (87). Net leasing for 2009 was therefore SEK 21 million (51).

The level of leased buildings held for investment purposes remains at 94 per cent. The degree of surplus, i.e. our operating surplus in relation to lease income, remains in excess of 70 per cent.

Our result after tax amounts to SEK 487 million (-49) as a consequence of a good operating surplus as well as an improved net financial income/expense. Furthermore we have achieved positive value changes for properties and derivatives.

Our entire portfolio of properties has been valued externally before the turn of the year. The market's yield requirement has been increased during the year for a number of our properties.

The yield on our properties excluding projects remains unchanged at 6.9%. The property value amounts to SEK 14.4 billion (13.6).

The concentration on our chosen market areas has continued during the year. During 2009, property acquisitions amounted to SEK 390 million and sales to SEK 287 million. During the year we acquired Kockums head office, known as Gångtappen, one of Malmö's best-known buildings. At the end of the year, we purchased a property where SVT Malmö moved in at Varvsstaden located next to Dockan. Financing of the SVT property was done through the sale of 1,250,000 of our own shares for a total of SEK 160 million. Shares that had previously been acquired at an average price per share of SEK 98:00 have now been sold at an average price of SEK 128:50 per share. The sale has meant that our solidity has been strengthened by 0.8 percentage points.

Solidity amounts to 29.6 per cent (29.4) and the interest coverage ratio is 2.7 (2.2). The key figures therefore agree with our financial objectives. Our loan debt amounts to SEK 8.8 billion (8.3) and the average interest at the year end amounts to 3.01 % (5.02) including the effects of derivative instruments used.

Wihlborgs' tax burden is low and the actual tax amounts to SEK 8 million. This is the result of tax write-downs on the property stock, direct deductions for certain rebuilds and the sale of properties in company form. The actual tax has arisen in companies where Wihlborgs has not had the possibility of group contributions.

Our investments in the property portfolio are considerable and we invested SEK 763 million in 2009. We continue to expand at Dockan and Region Skåne will move into its new premises after the summer.

Anders Jarl

Comments on the Öresund region market market

The signals of an upturn in the business cycle are on the increase but there is an interesting difference in the Öresund region. Economic recovery is in full swing in Skåne as in the Euro zone whereas Själland has difficulty in climbing out of the depression even though there are signs of light according to Öresundsinstitutet. In its report from January, Nordea says that disposable income in Denmark will rise nominally by eight per cent since housing rents are falling noticeably and tax pressure is decreasing. Danish consumers with purchasing power could play an important role even for Skåne.

The upturn predicted by Öresundsinstitutet based on commercial stock run-down is over and there are resources available for use and they can pull up growth figures quite significantly. Öresundsinstitutet forecasts a GDP growth for the Öresund region of 2.3 per cent for 2010 and 2.2 per cent for 2011.

Skåne is expected to grow and, after the opening of Citytunnel in December 2010, can look forward to Skåne's labour market becoming more cohesive. This can result in higher productivity growth as well as a more mobile and more efficient labour market.

Jones Lang LaSalle reports that the demand for office premises during the latest quarter has been considerable and vacancies have decreased in nearly all markets. Considerable activity during the fourth quarter of 2009 has been noted in Stockholm and Malmö/Lund.

Transactions were made in Sweden to the value of SEK 48 billion for the whole of 2009 according to Jones Lang LaSalle's assessment. This corresponds to a decline of 60 percentage points compared with 2008 and lies at a level of the transaction volume for 2003. The greatest transactions in terms of volume still take place in our three major cities. Stockholm's proportion of the total transaction volume is 46 per cent for the whole of 2009 (45) whereas Gothenburg and Malmö significantly increase their proportions and return to more "normal" levels – Gothenburg 9 per cent (4) and Malmö to 10 per cent (4).

The leasing costs of modern office premises in central Malmö are around SEK 2,000 per m². At Västra hamnen they continue to be SEK 1,950 - 2,100 per m². Lease income for other office premises in central Malmö is in the range of SEK 1,400 - 1,850 per m².

Income, expenses and result

Comparison figures for income statement items relate to values for 2008 and balance sheet items as at 2008-12-31.

Rental income

Rental income amounted to SEK 1,236 million (1,168). Increases in rental income can be explained by index linking, renegotiation, new leases and rental income from projects that were completed during 2009. The total growth in rental income amounted to 6 per cent compared with 2008.

The occupancy rate is 94 per cent and remains unchanged.

During the year, the signing of new lease agreements on a full-year basis amounted to SEK 129 million (138). Notices of termination during the year were SEK 108 million (87).

Property costs

The total property costs were SEK 348 million (336).

Net operating income

The net operating income amounts to SEK 888 million (832), which is a surplus ratio of 72 per cent (71).

Changes in properties' book value

Changed Item	Group total, SEKm
Book value 1 January 2009	13,620
Acquisitions	390
Investments	763
Properties sold	-287
Value regulation	16
Foreign currency translations	-84
Book value 31 December 2009	14,418

Central administration

Costs for central administration was SEK 32 million (31).

Property sales and changes in values

A total of ten properties were disposed of during the year for a total purchase price of SEK 287m, this is SEK 61 million above the total invested capital.

Malmöbryggan Fastighetsekonomi AB and Savills Sweden AB have valued all of Wihlborgs' properties in Sweden. The values of the properties are individually considered to correspond to the market value of the respective property. The properties in Denmark have been valued by DTZ.

The valuation has meant that the property value has increased by SEK 16 million (-423). Of the increase, SEK 54 million can be attributed to property sales during the year. The evaluation of projects in progress has increased with SEK 201 million whereas the value adjustment of the remaining properties gives a figure of SEK -239 million. Yield requirements have increased for certain properties during the period.

As at 31 December 2009, the net value of properties amounted to SEK 14,418 million.

The net value exceeds the value of properties in the group for tax purposes. There was a deferred tax liability for properties on 31 December 2009 amounting to SEK 1,064 million.

Net financial items

The net financial items amounted to SEK -315m (-351), of which rental income amounted to SEK 7m (14).

Interest costs for the year, SEK -322m (-365), correspond to a borrowing rate of interest of 3.74 per cent (4.63). At the end of the year, the average interest amounts to 3.01 per cent (5.02).

SEKm	2009 Jan-Dec 12 months	2008 Jan-Dec 12 months
Income from property management for the period	541	450
Profit for the period before taxes	623	-187
Profit for the period	487	-49

Per share, SEK

Income from property management for the period	14.92	12.09
Profit for the period before taxes	17.18	-5.03
Profit for the period	13.43	-1.32
Shareholders' equity I (26.3% deferred tax)	117.90	110.84
Shareholders' equity II (10% deferred tax)	135.50	126.91

Income from property management

Pre tax profit from ongoing property management, i.e. pre-tax profit excluding changes in value and derivatives amounted to SEK 541m (450). Charged with tax the result amounted to SEK 487m (-49).

Profit before tax

Pre-tax profit amounted to SEK 623m (-187).

Taxes

The actual tax has been calculated using a nominal tax rate of 26.3 per cent. The tax basis has been reduced by tax depreciation on the property portfolio and with direct deductions for certain rebuilding investments. Together with property sales in company format, this has led to the current tax being reduced to SEK 8 million.

Unused deficit deductions amount to SEK 500m (517), of which SEK 322m (326) is blocked until 2012.

Profit for the year

Profit after taxes amounted to SEK 487m (-49).

Property acquisitions

A total of 2 properties at a value of SEK 390 million have been acquired. The acquisition of Regionhuset in Lund from Region Skåne will be accounted for on the date of possession in the autumn of 2010.

Investments and projects in progress

Investments in the stock of properties have amounted to SEK 763m.

Investments agreed on in projects in progress amounts to SEK 759m of which SEK 335m was invested by the end of the year.

The major projects in progress are the newbuilding for Region Skåne at Dockan i Malmö and the newbuilding for Honda at Svåger-
torp. Comfort Hotel is being rebuilt and extended at Slagthuset.

The project for ÅF and Fojab as well as the multi-storage car park at Dockan were completed during the year.

Financial positions

Shareholders' equity

As of 31 December shareholders' equity amounted to SEK 4,417m (4,134) and the equity/assets ratio was 29.6 per cent (29.4). The long-term objective is that the equity/assets ratio will not be less than 25 and not more than 35 per cent.

Interest-bearing liabilities

The Group's interest-bearing liabilities as at 31 December amounted to SEK 8,844m (8,271) with an average interest rate of 3.01 per cent (5.02).

The loans' average fixed interest period including effects of derivatives on 31 December 2009 amounted to 30 months (44). The average period during which the capital is tied up, including credit promise, amounted to 5.1 years (2.8).

Wihlborgs holds eight derivative instruments and four closeable swaps of SEK 2.5 billion. The terms vary between 1.8 years to 8.4 years. A threshold swap of SEK 1 billion with a term of 7.0 years and three yield curve swaps of 0.5 billion with terms of 3.5 years.

During the first quarter of 2009, Wihlborgs held SEK 4.8 billion in three Stina swaps. This meant that Wihlborgs paid a fixed interest rate of 4.69 per cent.

The undervalue of the derivative portfolio has during the year decreased from SEK 203m to 137. In total, the derivative portfolio shows a positive value change of SEK 66 million.

Structure of interest and loan maturities as of 31 December 2009

SEKm	Interest maturity		Loan maturity

2012		52	4.29	2,628	2,626
2013					
2014		500	4.02	2,800	2,721
>2014		2,212	5.17	892	892
Total		8,844	3.01	8,932	8,844

Liquid assets

The Groups' liquid assets amounted to SEK 358m (232) including unutilised overdraft facilities.

Employees

At the end of the year the number of employees was 80 (81), of whom 25 was caretakers. The distribution of employees by region was as follows: Malmö 53, Helsingborg 18, Lund 5 and Copenhagen 4.

The average age was 49 years, and the proportion of women was 33 per cent.

Parent company

The parent company has no properties, it handles questions about the stock market and group functions for administration, management and borrowing transactions. The parent company has made investments during the period amounting to SEK 536 million (162). These investments are primarily in shares in subsidiaries.

Income and balance statements for the parent company can be found on page 14 in this year-end report.

Significant risks and and uncertainty factors

Wihlborgs' activities, financial position and profit are affected by a number of risk factors. The risks that represent a decisive impact on the group's profit growth are variations in rental income, changes in rates of interest, growth in costs, property valuation and taxes. To this is added the liquidity and borrowing risk. Refer to pages 48-49 and 63-64 of Wihlborgs 2008 annual report for a detailed description of the company's risks.

Accounting principles

Wihlborgs applies the IFRS (International Financial Reporting Standards) and the interpretation of these (IFRIC), adopted by the European Union. The interim report was prepared in accordance with IAS 34 Interim Financial Reporting. The accounting principles and methods of calculations are the same as were applied in the last annual report unless stated otherwise below.

New accounting principles 2009

The revised IAS 1 on the presentation of financial statements came into force on 1 January 2009. The changes mean that income and costs that were previously shown directly against equity are now shown in a separate report directly after the income statement. In future, only transactions related to shareholders and overall result are shown in a separate section. A further change is new designations of the financial reports. These are not compulsory however. Wihlborgs has chosen to retain the previous designations.

IAS 1 prescribes what information shall be accounted for in the income statement while the appendix describes how this shall be structured. However, neither that which is prescribed nor described is comprehensive or directed at a property-management company's conditions. Practice in property management companies in Sweden has evolved and a quite clear trend can be discerned.

Bearing this in mind, the division of the income statement has been changed as from the third quarter so that the operating statement is shown in a section in the income statement and value changes of properties and derivatives in a separate section between the operating result and the pre-tax result. Comparative figures for earlier periods have been reworked.

The current building of properties for future use as buildings held for investment purposes shall, in the future, be classified as buildings held for investment purposes and therefore shown at true value according to IAS 40 if other buildings held for investment purposes are valued according to the true value method. Buildings held for investment purposes were not previously valued at market value while being built but were shown as accrued expenses.

Other new or revised IFRS and interpretation statements were not considered to have had any great effect on Wihlborgs' financial reports. The latest annual report, page 58, gives further descriptions of new and amended accounting principles.

Property portfolio as of 31 December 2009

The summaries are based on Wihlborgs' property portfolio as of 31 December 2009. Rental income pertains to contracted rental income on an annual basis as of 31 December 2009.

The net operating income is based on the properties' earnings capacity on an annual basis as of 31 December 2009, based on contracted rental income and actual costs on a rolling 12-months basis. The operating surplus also includes the costs of property management.

Wihlborgs property portfolio consists of commercial properties' in the Öresund region, located in Malmö, Helsingborg, Lund and Copenhagen. As of 31 December 2009 the property portfolio consisted of 241 properties with a lettable area of 1,269,000 m².

Fifteen of the properties have a site leasehold right. The properties' book value was SEK 14,418m, equivalent to the properties' assessed market value. The total rental value was SEK 1,368m and the contracted rental income on an annual basis was SEK 1,250m. The financial occupancy rate was 91 per cent.

The properties in Malmö and Helsingborg represented 85 per cent of the total rental value and 83 per cent of the properties' book value. The rental value for office and retail properties and industrial/warehouse properties totalled 70 and 26 per cent of the total rental value respectively.

The net operating income is SEK 908m. This item also includes the costs of property administration amounting to SEK 50m. This cost therefore excludes the current net operating amounting to SEK 959m which, with a value of SEK 13,232m means a current yield of 7.3 per cent. When broken down according to property category this is 6.8 per cent for offices and 9.0 per cent for warehouses.

Proposal for dividend and repurchase

The Board of Directors will submit proposals to the annual general meeting on the following for approval:

- a dividend of SEK 6.75 (6.50) per share which corresponds to SEK 253m. The proposal means an increase of 4.0 per cent by comparison with the previous year. The proposal also follows Wihlborgs' dividend policy that the dividend shall comprise 50 per cent from the continuous management and 50 per cent of the realised profit from property sales that are subject to 26.3 per cent standard tax,
- to give the Board the authority up to the next AGM to acquire and assign Wihlborgs' shares corresponding to a maximum of 10 per cent of the remaining shares,
- to give the Board the authority up to the next AGM to decide on a new issue corresponding to a maximum of 10 per cent of the remaining shares.

Largest shareholders in Wihlborgs per 31 December 2009

The two largest shareholders in Wihlborgs are Brinova Fastigheter AB and Sten K Johnson through company and family who owns 10.3 and 6.8 per cent of the outstanding shares respectively.

As of 31 December 2009, the ten largest Swedish shareholders owned 34.5 per cent. The number of shareholders totalled 26,714, an increase by 250 shareholders since the year end. The percentage of shares abroad has decreased by 4.4 percentage units to 31.1 per cent.

Shareholders of 31 December 2009	No. of shares, thousands	% of shares and capital
Brinova Fastigheter AB	3,867	10.3
Sten K Johnson via comp. and family	2,560	6.8
Länsförsäkringar Funds	1,347	3.6
Robur Funds	1,250	3.3

¹ Refers to the proposed dividend for 2009.

DEFINITIONS

FINANCIAL

Return on equity

Profit as a percentage of average shareholders' equity excluding minority shares.

Return on total capital

Profit before tax plus interest expenses as a percentage of average balance sheet total.

Equity/assets ratio

Shareholders' equity as a percentage of balance sheet total.

Interest coverage ratio

Property management increased by interest costs divided by interest costs.

Leverage properties

Interest-bearing liabilities as a percentage of book value of the properties.

Debt/equity ratio

Interest-bearing liabilities divided by shareholders' equity.

SHARE-RELATED

Earnings per share before tax

Profit before tax divided by average number of outstanding shares.

Earnings per share

Profit divided by average number of outstanding shares.

Operating earnings per share

This is management result divided by the average number of outstanding shares.

Equity per share I

The parent company's shareholders' share of the equity at the end of the period relation to the number of shares at the end of the period.

Equity per share II

Calculated as the equity per share I but with the tax rate for deferred tax of 10 per cent instead of 26.3 (28) per cent.

P/E ratio I, times

The market value per share divided by the profit per share.

P/E ratio II, times

The market value divided by the income from property management loaded with 26.3 (28) per cent tax, per share.

Cashflow from operations before change in working capital per share

Cash flow from operations less current tax before change in working capital in relation to the average number of shares.

PROPERTY RELATED

No. of properties

Total number of properties owned by Wihlborgs at the end of the period.

Carrying amount of properties

Carrying amount of the Group's property portfolio at the end of the period.

Yield

Net operating income as a percentage of the book value of the properties at the end of the period.

Lettable area

Total area that is available to rent.

Rental income per m²

Annualised rental income divided by lettable area.

Net operating income per m²

Net operating income divided by lettable area.

Financial occupancy rate

Rental income as a percentage of rental value (including projects/land and property administration).

Surplus ratio

Net operating income as a percentage of rental income.

“Audience figures have increased noticeably”

In 2005 Skånes Dansteater moved to their new premises in Båghallarna at Dockan in Malmö.

– Wihlborgs has provided us with quite unique premises that are entirely appropriate for a dance company. If we are to believe what our audiences say, the premises for our activities are among the best in Europe, says Åsa Söderberg, CEO and artistic director of Skånes Dansteater.

But perhaps the most important is the smart layout:

– The different parts of the organisation provide visual contact all the time. The people in the office can see the dance studio and vice versa. This provides us with a quite different feeling of belonging together compared with what we had before. For me as the artistic director, everything is much easier and freer. Since we moved here in 2005 we have been able to expand our public activities by 40 per cent and our audience figures by much the same amount, concluded Åsa Söderberg.

Åsa Söderberg, Skånes Dansteater
